

iAnalyze Basic Training

OPI
MT Office of
Public
Instruction,
January 2005

1

What is iAnalyze?

- Web-based, data management tool for the CRT
- At no cost to schools or systems
- Provides basic and advanced reports
- Systems and schools may use several filters to create custom reports.
- Allows educators to sort data by content, grade, class, item, or standard. Each scored test item may be viewed and copied into a Word document.

2

What is iAnalyze?

- ...a secure website where data gathered from the CRT assessments are distributed.
- It was built by Measured Progress and is used in Montana, New Hampshire, Rhode Island, Vermont and Nevada.
- Stores and displays data from 2004 CRT
- Will continue to store data for the next three test years

3

Accessing iAnalyze

- Who is my school's test coordinator?
- Have I received my organizational/school logins and passwords?
- How do I get the logins and passwords?

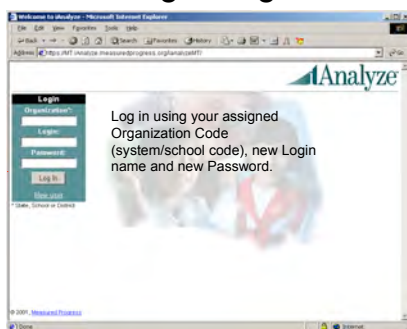

4

Accessing iAnalyze

- <http://iservices.measuredprogress.org>
